In this issue of our Newsletter:-

What's new?.. Our new cat room is operational
Staff News...A new face to introduce in a new post
Microchipping...Helping lost pets find their owners
Pet Passports...How to take your pet abroad
Exotic Spot...The African Land Snail
Kids Corner...The Lawton Joke Book gets another airing
Star Pet...Ruby slimmer of the month?

What's New?

Lawton and Stoakes are pleased to announce that the dedicated cat recovery room is now in use. It has proved to be a blessing for all our feline and small furry patients (rabbits, guinea pigs and other rodents) who can now recuperate away from any noisy dogs! The larger kennels are specifically designed with cats in mind with an offset door so that they have a place to hide away or where they can use their litter tray in private.

There is a window in the room allowing natural daylight in and an extractor fan circulates fresh air. As in the dog room wheeled infra red heat lamps provide extra warmth for those patients recovering from surgery or any that need that extra Tender Loving Care.

The kennels are made from a special polymer which retains warmth and is resistant to chemicals. This makes them easy to clean and disinfect for the health and safety of our patients.
